

## CHERRIES JUST WANT TO HAVE FUN New Fun-Size Farm to Market Maraschinos Join The Party

PORTLAND, OR — Gray & Company, the world’s largest producer of maraschino cherries, introduces its newest all natural CherryMan Farm to Market Maraschinos™ in new 2 oz. fun-size bottles. Whether you’re packing a summer picnic, creating the ultimate gift basket for a cocktail connoisseur, or checking off your holiday stocking stuffer list, these fun-size bottles pack a big punch in both flavor and fun. Pocket and small purse friendly, CherryMan fun-size maraschinos are a perfect on-the-go sweet treat. They are even airport approved for your cherry enjoyment at 35,000 feet!

CherryMan Farm to Market Maraschinos shed the artificial colors, flavors and preservatives, capturing the natural essence of fruit right out of the orchard—crisp, fresh and sweet, but still a close cousin to CherryMan’s traditional maraschino. Cherry aficionados can happily reach into a jar of red jewels with complete abandon knowing the sweet treat is fat-free, gluten-free, sodium-free, kosher, contains no high-fructose corn syrup, and has just two grams of sugar per cherry.

Each jar of Farm to Market Maraschinos™ has a unique QR code that can be scanned to reveal the exact origins of the fruit and the story behind the growers. CherryMan cherries are primarily supplied by family farms in Michigan and Oregon. So whether you’re mixing up a Manhattan or creating the perfect banana split, these cherries are homegrown in the USA.

Fun-size Farm to Market Maraschinos™ are available for purchase (3 jars for \$5.00) starting July 1<sup>st</sup> online at [www.cherryman.com](http://www.cherryman.com). For wholesale inquiries, please contact [sales@cherryman.com](mailto:sales@cherryman.com).

### ABOUT GRAY & COMPANY:

Founded in 1908 as a wagon distributor of fountain syrups in Portland, Oregon, Gray & Company is a privately held corporation with more than a century of tradition as a fruit processor, and today stands as the world’s largest producer of maraschino cherries. Gray & Company has processing facilities in both Oregon and Michigan, from which they serve North America and markets around the globe.
